THE NEW STANDARD IN PORTABLE OXYGEN

The groundbreaking iGo2 Portable Oxygen Concentrator (POC) has created a new class of product – the auto-adjusting POC. This first-of-its-kind POC uses patented SmartDose™ Technology. Now you can enjoy life more freely without worrying about changing oxygen settings during activity. This gives you the peace of mind and the freedom you have been looking for.

Patented SmartDose™
Technology

Most sensitive POC

FAA compliant

Weighs less than
2.2 kg

Durable, high
quality POC

FLEXIBILITY IN DOSING

SmartDose[®]
TECHNOLOGY

iGo^{®2}

SmartDose™ Technology automatically adjusts oxygen dose to your breath rate, delivering more oxygen when needed to help keep you saturated.

Therefore it is not necessary for you to manually adjust your settings as oxygen levels will remain consistent during activity.

Giving you the freedom and confidence to live a more active lifestyle.

HOW BIG IS
YOUR
WORLD?

UNLIMITED FREEDOM

iGo[®]2

The iGo2 Portable Oxygen Concentrator sets you free to go everywhere and makes travelling with oxygen more convenient than other oxygen delivery methods – no matter how you're getting there and back.

The iGo2 is lightweight and easy to carry in its practical over-the-shoulder carry bag. Thanks to its high-quality design the iGo2 is very durable. Equipped with a protective, rugged overmold, it provides an extra layer of protection against the demands of everyday life.
